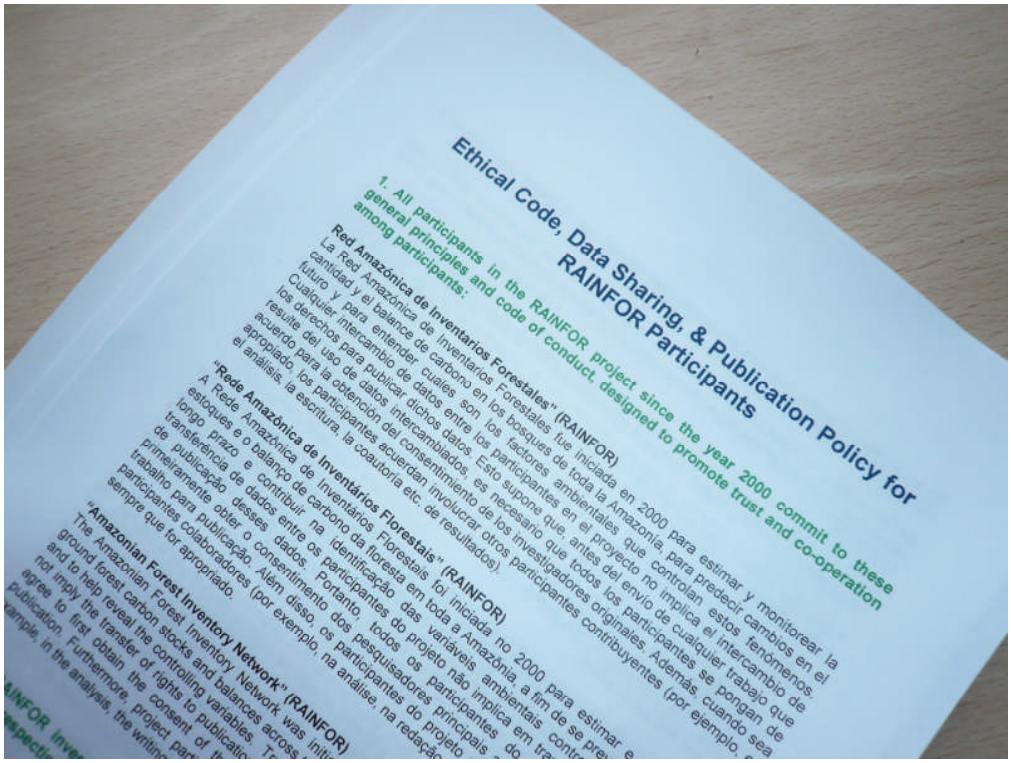
*August 2008*

**Ethical Code, Data Sharing, & Publication Policy for RAINFOR Participants.**


After consulation across the network our ***ethical code*** has been revised and expanded. The principles conform to the terms of the RAINFOR Grant Agreement with the Gordon and Betty Moore Foundation, other RAINFOR funding agencies, and the LBA project of which we are part. They are designed to support a strong, shared, co-operative and ethical approach to our work together.
